ECHObracket

is a flexible mounting kit for the ECHO 5 from LigoWave, which turns it into a really small form factor client or bridge device. With the mount the ECHO 5 is capable of short to medium distance links (delivering ~100 Mbps on a 3 km/ 1.86 mi). The bracket is designed for fast and easy installation of the ECHO 5 and can be mounted on the wall or on a pole. Three axis positioning allows flexible antenna alignment when devices are mounted at different heights.

Technical data

Materials	Bracket, Holder - UV stabilized and weather resistant ABS plastic. Hardware - Stainless Steel
