

LigoPTP 5-23 UNITY

Product End of Life Announcement

LigoWave strives to deliver the ultimate user experience and impeccable product functionality. As technologies continue to progress, certain hardware and software become obsolete and eventually discontinued to make room for newer and more advanced technical equipment. With its solid expertise and know-how within the field, LigoWave will help you through this transition.

LigoWave hereby announces that it is initiating the end of life of the following product and provides relevant end of life dates:

Product	Description
LigoPTP 5-23 UNITY	A 5GHz backhaul device with aggregate throughput of up to 220Mbps (110Mbps full-duplex) and high PPS performance (140,000). Makes use of the 2x2 MIMO technology.

End of Life Timeline
