

# LigoDLB MACH 5

Product End of Life Announcement

LigoWave strives to deliver the ultimate user experience and impeccable product functionality. As technologies continue to progress, certain hardware and software become obsolete and eventually discontinued to make room for newer and more advanced technical equipment. With its solid expertise and know-how within the field, LigoWave will help you through this transition.

LigoWave hereby announces that it is initiating the end of life of the following product and provides relevant end of life dates:

Product	Description
LigoDLB MACH 5	A high capacity 5GHz outdoor wireless device ideal for mid to long range PTP links, equipped with an 802.11n radio, high-gain dual-polarized antenna, IP67 compliant enclosure, and delivering output power of up to 29dBm.

## End of Life Timeline

Announcement <sup>1</sup>	End of Sale <sup>2</sup>	End of Software Maintenance <sup>3</sup>	Last Date of Support <sup>4</sup>
July 3, 2017	December 3, 2017	July 3, 2019	July 3, 2020

## Alternative Products

LigoWave offers other fully supported products to replace the discontinued wireless device. You can find LigoDLB MACH 5 alternatives below:

Image	Alternative	Description
	LigoDLB MACH 5ac	A high capacity wireless device, distinguished by its powerful hardware platform and exceptional design, made for maximum 500+Mbps performance. Directional 23dBm panel antenna makes this product ideal for medium to long range connectivity in PTP and PTMP scenarios. LigoDLB MACH 5ac is an ideal solution for capacity demanding applications.
