

APC series

Product End of Life Announcement

LigoWave strives to deliver the ultimate user experience and impeccable product functionality. As technologies continue to progress, certain hardware and software become obsolete and eventually discontinued to make room for newer and more advanced technical equipment. With its solid expertise and know-how within the field, LigoWave will help you through this transition.

LigoWave hereby announces that it is initiating the end of life of the following product and provides relevant end of life dates:

Product series	Description
APC	APC series are dedicated for last mile connectivity. All devices can operate in point-to-point and point-to-multipoint mode.

End of Life Timeline

Announcement ¹	Last Date of Support ²
June 15, 2017	June 15, 2019

Alternative Products

LigoWave offers other fully supported devices to replace the discontinued product series. You can find the APC alternatives below:

Image	Alternative	Description
	LigoDLB series	<p>This product line is dedicated for the last mile point-to-multipoint and light point-to-point applications in the unlicensed (2.4 and 5 GHz) band. A variety of models including base-stations and client devices make the products ideal for Internet service providers and operators running their networks in the open bands. Powerful software platform with proprietary communication protocol ensures smooth performance even in congested environments.</p> <p>Find more about the LigoDLB series</p>
