

# Wireless Network Management System (WNMS)

Product End of Life Announcement

LigoWave strives to deliver the ultimate user experience and impeccable product functionality. As technologies continue to progress, certain hardware and software become obsolete and eventually discontinued to make room for newer and more advanced technical equipment. With its solid expertise and know-how within the field, LigoWave will help you through this transition.

LigoWave hereby announces that it is initiating the end of life of the following product and provides relevant end of life dates:

Product	Description
Wireless Network Management System (WNMS)	A free enterprise-grade cloud-based wireless network management system for LigoDLB and LigoPTP series of devices.

## End of Life Timeline

LigoWave has announced the end of the Wireless Network Management System (WNMS) Cloud Service on August 13, 2018, which was discontinued on December 4, 2018. Dates for the announcement and support discontinuation of the Wireless Network Management System as a LigoWave software solution are as follows:

Announcement <sup>1</sup>	Last Date of Support <sup>2</sup>
January 10, 2019	January 10, 2020

## Alternative Products

LigoWave offers fully supported alternatives to the Wireless Network Management System (WNMS):

Image	Alternative	Description
	Infinity Controller	An intuitive wireless network management platform with dozens of configuration and management features currently available for the NFT, LigoDLB, and LigoPTP series.
